BEDTIME

Copy-me actions

Stick this on the fridge. Do each action slowly, say the word, smile, and pause so baby can try.

1

Wave

Say "hi!" and "bye-bye" with a big, slow wave. Try it at the door every time someone comes or goes.

2

Clap

Clap two times and say "clap clap". Cheer when baby claps back, even a tiny pat counts.

3

Point

Point at the dog, the ball or the milk and say the word. Wait a moment before you say it again.

4

Up

Lift your arms and say "up!" before you pick baby up. Soon the arms come first.

5

More

Tap your fingertips together and say "more" at snack time. It's one of the first signs babies use.

6

Moo!

Make Moo's sound with a big round mouth. Animal sounds are often a baby's first "words".

Watch together, then play together!
